UNCC Coding Bootcamp Project 1 Powered by Team Tesla

August 2018

Food for Thought
"You Crave It, We'll Find It!"

Concept

- Your Locale
- Food of Choice
- Your Results

Food for Thought
"You Crave It, We'll Find It!"

Motivation for Development

- Most Apps OK
- Best Ones Solve A Problem
- We Are Foodies!

Food for Thought
"You Crave It, We'll Find It!"

Design Process

- Group Effort to Meet Project Specs & Design Standards
- Back-End Design More Labor Intensive than Front-End
- API Research/Functionality Particularly Challenging

Food for Thought
"You Crave It, We'll Find It!"

Technologies Used

- APIs: MapQuest, Zomato
- Firebase, AJAX, JQuery, JavaScript, Bootstrap, CSS Keyframes

Food for Thought
"You Crave It, We'll Find It!"

Demonstration of Functionality

- Refer to Team Tesla website (link)
- Brief Walkthrough with Teammates
- Sample Difficulty (Longitude/Latitude)

Food for Thought
"You Crave It, We'll Find It!"

Directions for Future Development ?

- Teamwork Makes the Dreamwork
- Expect Everything to Take 2-3X as Long to Accomplish as You Think
- Stay Inspired (See next page …)

Food for Thought
"You Crave It, We'll Find It!"

A Note on Inspiration...

- A Nod to Nikola Tesla

"Every living being is an engine geared to the wheelwork of the universe.

Though seemingly affected only by its immediate surrounding, the sphere of external influence extends to infinite distance."

———

Nikola Tesla, Inventor, 07/10/1856 - 01/07/1943

Team Tesla Rocks

Time for Q/A

Cue Thunderous Applause

Thank You!
